

AndraStent XL & XXL Balloon Expandable Stent System

- **Cobalt Chromium Stent - High Radial Force With Minimal Material**
- **“Hybrid Cell Design” For High Flexibility With Extra High Performance**
- **Very High Product Variability With Minimize Puncture Site**

DELIVERING LESS INVASIVE FUTURE TECHNOLOGY

AndraStent XL & AndraStent XXL

- The AndraStent XL & the AndraStent XXL have been specifically designed to meet the high requirements for extra large vessels & procedures where XL & XXL Stents are needed.
- Improved flexibility to the conventional XL Stents allow much better delivery performance
- New materials deliver lower crimping profiles with lower sheath compatibilities but remains high radial strength

Technical Specifications:

Material:	HD Cobalt Chromium MP35N
Stent Design:	Hybrid Cell design
Dilatation Range Andramed XL-Stent:	14mm – 25mm Ø
Recommended Sheath XL-Stent:	8 F (+ 1F) depending on the PTA
Dilatation Range Andramed XXL Stent:	20mm – 32mm Ø
Recommended Sheath XXL Stent:	10F (+ 1F) depending on the PTA
Stent Recoil:	< 2.8%
Surface / Artery Ratio	18% -23%
Strut-thickness:	0.010"
